13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Chi Operating, Co. is proposing to change the on lease ROW for the flow line and Power Line from the Wizard Federal Com, Well No. 6 south on the west side of the N/S oilfield road to the Culwin Queen #12 power line that has a power line connection running east to the Wizard Fed. #2. The power line will be run on the existing power line poles to the No. 2 electric connection at the well. The flow line will follow the same route which is an existing disturbance area. This change is being done since the planned Frac Tank will not be built near the proposed original ROW because the existing tank built by Cimarex Energy Co. in The SWSW of Sec. 1-T19S-R30E will be used. This route was also a recommendation of John Fast. See Exhibit "A".

RECEIVED**FEB 28 2011****NMOCD ARTESIA**14. I hereby certify that the foregoing is true and correct
