Re: Merritt State  
#1-K, 22-12S-27E  
Chaves County, N. M.

Gentlemen:

On a recent inspection of the subject well, we found the condition of the location had not changed since our last inspection and letter to you advising as to what must be done. Prior to approving the plugging report, the following must be accomplished:

1. Correct section number on marker from 12 to 22.
2. All junk must be removed or buried.
3. Fill pits and level location.
4. Dead men wires must be cut.

Failure to comply and notify this office that all work has been completed within 30 days will result in this matter being referred to our attorney for further action.

Sincerely yours,

OIL CONSERVATION COMMISSION

*W. A. Gressett*
