Attn: Mr. C.O. Bizzell

Dear Carl,

We are pleased to submit a Mud Program for the Mid-West Fed.#1, to be drilled in Chaves County, New Mexico, Sec. 23 Township 10-S. R-29 East.

0-350'	Surface Set.
350'-3000'	Drill with native mud, using Mud Seal if needed for loss of fluid.
3000'-6000'	Drill with fresh water, using Mud Seal if needed for loss of fluid.
6000'-8000'	Mud up with sample mud if needed, using Visbestos and T.M.C. Gel. Vis.31-32: Wt.9-9.4: W/L 20-30cc For D.ST. raise Vis.34-36; Lower W/L 20cc or less.
8000'-8700'	Raise Vis. 34-36; Lower W/L 10cc
8700'-T.D.	Lower W/L 5cc, before going into marrow. Raise Vis.40-42 if needed to test and log.
Drilling Hazards	None expected.
Est. Mud Cost	\$8,000.00
Stock Point	Lovington, New Mexico. Call 915-381-0400.
Engineer	J.F. "Red" Nimmons - Odessa - 381-0400

Thank you for the opportunity of presenting the above proposed mud program.

Sincerely,

Leon Koonce
TEXAS MUD AND CHEMICAL COMPANY
