Re: Cappetro 28 State
#1-H, 28-14-28
Chaves County, N. M.

Gentlemen:

According to the Scout Report, the subject well was spudded on the 6-28-74, drilled to 250' where 8-5/8" casing was set and cemented.

To date, this office has not received Form C-103 reporting the spud date, setting and cementing of surface casing in this well.

Please submit said C-103 at your earliest, reporting all work performed on said well to date.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District II
