Re: O'Brien "C"  
#4-L-1-9-28  
Wildcat Penn Pool

Dear Pat,

According to our files, a C-105 shows that the Penn formation was completed and shut-in.

If you have plugged and abandoned the Penn formation, we need a C-103 showing this, and a C-103 filed for returning to the Twin Lakes San Andres Pool.

As of now you do not have an allowable for producing this well. We have nothing showing the completion of the Twin Lakes-San Andres, the formation zone or when the well was put on production, or if it is producing.

The well is being listed on your C-115's as producing.

Could you help us out on this as soon as possible?

Yours truly,

Mae Morgan

MM:fc

*Willing to plug  
well. I am not  
sure of Penn comp. -*
