Re: State 27
#1-M, 27-4S-27E
Chaves County, N. M.

Gentlemen:

The last report received in this office on the subject well was Form C-103 reporting perforating 6464-86 treating-testing and setting a cast iron bridge plug @ 6385.

According to the scout report and a representative of your company, the well was perforated in the Strawn and completed as a gas well late last year.

In telephone conversation, I have requested additional reports, but to date, we have not received them.

Therefore, failure to submit all delinquent reports immediately, will result in this matter being referred to our attorney for further action.

Sincerely yours,

W. A. Gressett
Supervisor, District II
