Chaves County, NM

Dear Mr. Garner:

To date this office has not received Form C-103, Subsequent Report of Plugging the subject well, which will be required prior to releasing your bond.

Said Form C-103 must show the amount of 4½" casing that was recovered, the sacks of cement in each plug, where plugs were set, the date the well was plugged, and that the pits have been filled and levelled.

Upon receipt of said Form C-103, an inspection will be made to determine that the marker has the required information thereon and the location has been cleaned and levelled.

If everything is in order and we approve said plugging report, then you can request a release of your bond.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

W.A. Gressett
Supervisor, District II
