Gentlemen:

Y

The Artesia District Office of the Oil Conservation Commission has had correspondence with you in an attempt to prompt action concerning the above-referenced wells. Certain reports have been requested on these wells; and the leakage of salt water from the valve of your Garner Well No. 1 must be remedied. This letter is to advise you that if steps have not been taken on or before March 18, 1977, to take care of these problems, the Commission will be forced to commence appropriate legal proceedings.

Very truly yours,

LYNN TESCHENDORF
General Counsel
