5. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We are trying to hook-up our Sam's Ranch gas wells. The only way we can get Duke to set a meter is to have the Barnhill, Lillie and Nola gas wells go to a central point of delivery (CPD). We hereby request permission to set a central point of delivery meter for these wells. The CPD will be located at the Lillie #2 location in 14S-28E. Duke will set a separate meter for the Cannonball (a Morrow well) at the same location. We are in the process of equipping and turning this well on.

Approval Subject To Having An Allocation Meter
At Each Well To Measure Gas Prior To Going To
Central Point of Delivery (CPD) Meter.

I hereby certify that the foregoing is true and correct.
