Gentlemen: ✓

Please be advised that on January 7 and 11, 1977, oil in the amount of 438.41 barrels was moved from our Federal "17-A" Lease, Bluit San Andres Associated Pool, to our Bosque Springs Well No. 1, which is in the final stages of completion. The Bosque Springs Well No. 1 is a wildcat location in Section 34, Township 6 South, Range 28 East, Chaves County, New Mexico. This oil was used for frac and load oil and should be recovered.

Yours very truly,

A handwritten signature in cursive script, reading "John Tyler".

John Tyler  
District Production Superintendent
