Chaves County, NM

Dear Sir:

We are returning the enclosed Form C-105 on the subject well for additional information.

Please complete by filling in the Formation Record from surface to total depth.

According to Form C-101, this well was permitted as a Siluro-Devonian oil well and was so located. However, the well was completed as a Mississippian gas well. Therefore, the non-standard location must be approved prior to producing the well.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

W.A. Gressett
Supervisor, District II
