Re: O'Brien "A" #1
Chaves County

Dear Mr. Gressett:

In connection with the above captioned well, we submit the following Form C-104 request for a test allowable.

During completion and testing of the subject well, approximately 130 BBLS of condensate were accumulated in a rental tank located at the well site. This well is presently shut in waiting on negotiations of a gas contract. It appears that these negotiations may not be finalized for several months. It is therefore requested that a test allowable be granted to Texas Oil & Gas Corp. so that this condensate may be sold and this rental tank released.

If further information is required, please advise.

Very truly yours,

S. P. Baker
District Drilling Engineer
