7. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

at 5:30 AM. 2-22-78 Leonard George was notified by W.A. Mason to come out of hole laying down - drill pipe, to plug well in a down hole. Denton oil Well Cementing Co. plugged well at 810' to 910' w/35 wt class C - at 450' to 550' w/35 wt class C and w/10 wt from 0' to 30' class C cement. State Well Inspector was on hand at time long string was given - again when well was plugged - I do not know what pressures were attained either time - but Leonard George, drilling contractor was present both times. Rotary pits were backfilled 3/28/78 by J.L. Rowland Antecia, Mex. and Leonard George 'planted' the local member on location of dry hole -

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

W.A. Mason TITLE E.B.A. Mason oil Co. DATE 8-14-78

W.A. Gussitt TITLE SUPERVISOR, DISTRICT II DATE SEP - 7 1978
