- ☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to letter 3100 (06684), please be advised, geologists are currently evaluating the well for uphole potential. The San Andres produces in the area, also the well may be useful as an injector.

We need time to evaluate the potential and contact partners for funds.

If we can not find any way to utilize the well, we will request approval for plugging, which will also require partner funds and approval.

Please grant an extension for compliance to January 15, 1996.

We would like to coordinate plugging two wells in the Artesia District with the work done to this well.

14. I hereby certify that the foregoing is true and correct

Signed Rodney T. Seale Title Superintendent
