Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to change plans and run 400' of 13-3/8" surface casing and circulate, 800 or 900' of 9-5/8" casing and circulate. We will then reduce hole to 8-3/4" thru the Abo formation, then maybe reduce hole to 7-7/8" unless we have to run 7" casing liner to total depth.
