Dear Sir:

According to our records, the subject well was drilled to approximately 450 feet, and operations were suspended approximately a year ago. To date, we have no record of a bond for Sutton and Tucker or S&S Hot Oil Services, Inc. Also, the changes in ownership that they have submitted are not acceptable even if they had a bond.

Therefore, we are hereby requesting that you squeeze cement the 8 5/8" casing and resume drilling operations or plug and abandon the well as soon as possible.

Please advise this office of your plans concerning the well prior to commencing any work.

Sincerely,

A handwritten signature in cursive script, appearing to read "W. A. Gressett".
