17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

After subsequent visits to the #2 Teckla "MD" location with the rancher, we agreed to relocate the road to come off the #1 Teckla "MD" location going SSW. The archaeological report is forthcoming on the +900' of new access road across federal land as shown on attached map.

In the event of a dry hole we can let the road reset naturally and remove the cattleguard.
