Re: Gas Well Shut-in Pressure Tests
Runyan Ranch Abo (Gas)
Chaves Undesignated Abo (Gas)

Gentlemen:

This letter is to request an exception for the wells listed below due to the fact that shutting in these wells for at least 24 hours to run the captioned tests will result in severe damage to the wells as it will kill them.

<u>Runyan Ranch Abo (Gas)</u>	
Tres Amigos No. 1	1 L 9 19S 23E
<u>Chaves Undesignated Abo (Gas)</u>	
Coyote Federal No. 2	2 B 12 8S 24E
Dana Federal No. 1	1 P 4 9S 25E

In the event it becomes necessary to shut these wells in for any reason, we will schedule the tests at that time.

Very truly yours,

Paul Ragsdale
Operations Manager
