RE: O'Brien "N" #2 & #3
32-8S-29E
Twin Lakes San Andres

Gentlemen:

It has been brought to our attention that the operator on the above two (2) wells have been changed from Stevens Operating Corp. to Pelto Oil Company. Please submit a C-104 with four copies on each of the above wells.

The last report we received on the O'Brien "N" #2 stated that the present hole would be tested for a water well and upon completion of tests as a water well or abandoned, would be completed or plugged in accordance with OCD directives. We need a completion report, deviation survey and a copy of each log run on this well. If the well was plugged, submit a P & A report.

The last report submitted on the O'Brien "N" #3 was for the setting of the 8 5/8" casing. We need all subsequent reports, also a completion report, deviation survey and a copy of each log run on this well. If well was plugged, submit a P & A report.

Thank you for your prompt attention to this matter.

Sincerely,

A handwritten signature in cursive script that reads "Mike Williams".

Mike Williams
