Dear Mr. Williams:

Per your request, enclosed please find copies of Form C-104's filed with the Santa Fe office today. To Pelto's knowledge nothing else has been done to the subject wells other than the information you have on reports filed by Stevens Operating Corporation. There are no logs to be filed. Pelto will plug these wells and file the appropriate reports upon completion of the plugging.

Sincerely,

A handwritten signature in cursive script that reads "Linda Crossley".
