

# Memo

From

M.C. STUBBLEFIELD  
DEPUTY OIL & GAS INSPECTOR

To 2:00pm  
8/26/81  
-15-7-28

Sanders Petro. Corp. Isler #1  
I went by Vancouver rig #1 to  
check general operations of rig.  
The rig ~~and~~ crew. were fixing  
mud pump about to drill.  
cement plug + deviate around  
drill collar lost in hole.  
The tool pusher also said  
they had some sort of water  
flow around 2400' ?  
TD was 5200' + TOC was 4004'.  
last circ. @ 5200'.
