Gentlemen:

We are returning your C-103 on the above captioned well that you submitted covering the running and cementing and casing test on the 8 5/8" and 4 1/2" casing.

You showed WOC of 12 hours. Rule 107 requires WOC of 18 hours unless option 2 is used. Apparently option 2 was used and we need the additional information as required on page C-7 and C-8 of the Division Rules and Regulations.

Very truly yours,

*Leslie A. Clements*
