ABANDONMENT*

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is Proposed to:

Re-enter 8 5/8" casing and drill a 7 7/8" hole to approximately 4400' to adequately test the Abo Formation.
If a commercial zone is encountered, 4 1/2" J-55, 10.5# casing will be set through the zone, cemented to completely cover all prospective pay zones to sufficiently perforate, stimulate and test without the danger of any communication. A 3000# double ram BOP will be installed prior to drilling out of the 8 5/8" casing.

TD: 4275

3698: Abo

G10 1610

18. I hereby certify that the foregoing is true and correct
