17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Due to economic conditions with gas purchaser, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We request approval to commingle Yates' Tesuque TQ Federal #1 with our Bronson SH Com #1 well, located SE/NE, Section 9-T5S-R24E, prior to measurement for sales for the purpose of marketing our gas. The sales point is located at the NW/SE of Section 9-T5S-R24E, (meter house location).

Yates Petroleum Corporation conducts quarterly calibration tests on meters. Yates' will furnish the BLM with dates if requested by the BLM.

Transwestern Pipeline Company conducts quarterly tests on TW's meters and semi-annual gas analysis tests.

18. I hereby certify that the foregoing is true and correct
