(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Amend surface use plan to include 2 7/8" gas gathering line for the purpose of selling gas from the above referenced wells. As can be seen on the attached map, the line will be laid on the surface going south from the Huckaby #1 in section 18 to the Huckaby #2 in section 19 then on to the southeast to the Huckaby #3. The line will continue in a southeasterly direction to the Kershaw "UE" #1 where Transwestern will set a meterhouse. Approximately 4660' of the line will be on federal surface in the north half of section 19. We will be on private surface owned by Carl Cooper in section 18 and the southeast quarter of section 19. Right-of-way will be obtained from Mr. Cooper for the portion that is off-lease in section 19.

18. I hereby certify that the foregoing is true and correct
