Gentlemen:

McClellan Oil Corporation has informed us that the hole on the Coyote Federal No. 4 was junked during drilling operations and subsequently had to be abandoned. They desire to skid the drilling rig to an unorthodox location in order to drill the replacement well, the Coyote Federal No. 4-Y. The proposed unorthodox location for this well is:

2310' FSL x 660' FWL of Section 8, T-8-S, R-25-E in
Chaves County, New Mexico.

Amoco Production Company (USA) hereby waives objection to this proposed drilling location.

Yours very truly,
