17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Amend surface use plan to include a 2 7/8" gas gathering line for the purpose of selling gas from the above referenced wells. As can be seen on the attached map, the line will be laid on the surface going west from the Ingram #1 to the Beard "QQ" Federal #2 pad where Transwestern will set at meterhouse. Approximately 990' of the line will be on federal surface in the north half of the northwest quarter of the section. We will be on private surface owned by Spool Cattle Co. in the north half of the northeast quarter of the section and arrangements will be made to pay Spool Cattle Co. for the damages incurred while laying the line on their surface. We will apply for ROW for the portion that is off lease. This part of the line will be buried per BLM request.
