17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details and pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Subject well was drilled to TD of 3200' on 6-2-83. After log evaluation, Mesa Petroleum Co. declined to run production casing due to marginal economics of well. Yates Petroleum Company as working interest partner has requested that operations be turned over to them as provided by mutual operating agreement. Rig released at 2300 6-3-83. (\*) Designation of Operator is being provided to Yates Petroleum Co. by separate correspondence. (Well is T&A 6-4-83).
