Re: Campbell Station Unit
#3-H-33-8-27
Wildcat Fusselman

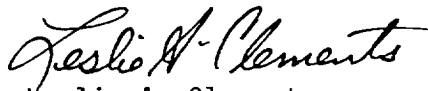

Gentlemen:

We are in receipt of your C-103 dated June 14, 1983, on the above captioned well giving the spud date, hole size, and casing run.

Your C-101 was approved June 7, 1983, for running and setting 13 3/8" surface casing at 345' and circulated.

If this 13 3/8" surface casing was run, please file a C-103 indicating that the work was done and how. If it was not run, we will consider the approval of the C-101 voided.

Very truly yours,

Leslie A. Clements
Supervisor District II
