17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

Due to economic conditions with gas purchaser, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We request approval to commingle Yates' Jaguar XO Federal #1 well with Yates' Lewis ABN Federal #1, located NW/SE, Section 21-T8S-R23E, prior to measurement for sales for marketing our gas. The sales point is located at Mesa Petroleum's Salt Federal #2 well, located NW/SE, Section 8-T8S-R23E.
