17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

It was originally proposed that this well would be drilled to 8200 feet. Formation tops have been running low and it is now anticipated that a total depth of 8370 feet will be needed to fully evaluate this prospect.

Verbal approval to drill to this depth was granted by Mr. Armando Lopez on September 6, 1983.
