Dear Ms. Clack,

Your C-103 intent (copy inclosed) to plug cannot be approved without some further explanation on the catalyst. Please provide information as to:

1. Amount of catalyst to be placed in well bore.
2. Method of placement.
3. Area (depths) the catalyst will be placed.
4. Describe method of, or define "special marking" of the dry hole marker.

Thank you very much for your help in resolving this matter.

Respectfully,
