(NOTE: Report results of multiple completion on Well Completion or Recombination Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

10/12/87 Due to limitations on Transwestern's line, the previously approved right-of-way (7-23-87) will not be used and should be relinquished.

In order to connect this well it will be necessary to lay a flowline from the MOC Fed. #7 to the MOC Fed. #9. A map is enclosed for your information. Approximately 700 feet of BLM surface will be crossed with a line running parallel to Transwestern's lateral line. The line will then cross approximately 2300 feet of private surface owned by Mrs. E.N. Benedict. A surface agreement has been reached.

Measurement facilities will be constructed on the well pad and at the hot tap to Transwestern's line. All measurement will be on lease.

18. I hereby certify that the foregoing is true and correct

SIGNED

*Paul Regisdale*
