The McKay-Harvey Federal 1,2,3, & 4 wells will be produced thru a main pipeline gathering system owned and operated by McKay Oil Corporation. This pipeline is connected to Transwestern Pipeline Company's system and a master meter just north of the Bitter Lakes Compressor Station in NW/4NW/4 of Section 10-9S-25E. (See attached Map) The master meter will be the measurement used for payment of gas on all of these wells from Transwestern Pipeline Company. However, a separate meter is installed on this well location for the purpose of individual measurement for the payment of royalties, taxes, etc.
