Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We propose to set a 4 1/2" CIBP @ 2850' with a 35' cement cap. We would find the Free Point on the casing, cut and pull out of the hole. We would load the hole with mud, then run cement 50' below and 50' above the 4 1/2" stub and then tag the top of cement. Set a 10' cement surface plug and set dry hole marker

Minimum 25 SX plug
Set 25 SX plug @ 275 as per Les

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
