Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We propose to set a 5½" CIBP @ 2800' with a 35' cement cap. We would find Free Point on the casing, cut and pull out of the hole. We would load the hole with mud and run cement 50' below and above the 5½" stub, then tag the top of the cement. Set a 10' cement surface plug and set dry hole marker.

Minimum 25 sx plug
Set 25 sx plug & 25 as per logs

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
