Mr. Leslie A. Clements
New Mexico Oil Conservation Division
P. O. Drawer DD
Artesia, New Mexico 88210

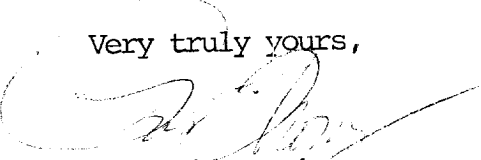

Dear Mr. Clements:

Stevens Operating Corporation is hereby requesting a 60 day extension to vent gas from the Huber State #1 well located in N of Sec. 16, T-8-S, R-29-E. The well makes approximately 7 MCF per day.

We have filed and are awaiting approval from Santa Fe for the installation of a LACT system. As soon as this is approved, we will be running the gas through the system and selling it to Liquid Energy Corporation.

If you have any further questions, please do not hesitate to contact me.

Very truly yours,

Patricia R. Thompson
Production Controller
