Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We propose to set a $4\frac{1}{2}$ " CIBP at 2800' with a 35' cement cap. We would find Free Point on casing, cut and pull out of hole. We would load the hole with mud and then run cement 50' below and 50' above the $4\frac{1}{2}$ " stub, then tag the top of cement. Set a 10' cement surface plug and set dry hole marker.

*Minimum 25 sz plug
Set 25 sz plug & 450 as per Lcs*

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
