(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Amend Land Use Plan to include a natural gas pipeline right-of-way 30 feet in width and approximately 800' in length going from Yates' Spear OA Federal #4 to the Spear OA Federal #2, located 660' FNL and 660' FWL of Section 15-T9S-R26E (NWNW). This line will tie into Enron's pipeline at this point. The pipeline will be constructed of a 2-1/2" steel pipe to be buried with a minimum of 24 inches of cover. An archaeological survey has been conducted and a copy has been submitted to the BLM office. Note the enclosed map. Please note in Section 10 that it is private surface owned by Mr. David McCrea of Roswell. Section 15 is private surface and federal minerals. The surface is owned by Carl Meredith of Melrose, New Mexico. Surface agreements will be obtained before construction starts.

18. I hereby certify that the foregoing is true and correct
