Re: West Dog Canyon #1-H,
Sec. 18-25S-20E, Otero
County, New Mexico

Dear Mr. West:

We hereby acknowledge receipt of Form C-103, Notice of Intention to plug back to 2659 and complete as a fresh water well.

However, to date we have not received Form C-103, reporting the setting and cementing of the 9 5/8" casing. Please submit this report showing the size, amount, grade and weight of casing, the type and amount of cement used, the WOC time, pressure tests and results. Also report the amount of cement used and the number of stages in plugging back to straighten the crooked hole.

Further, in order to complete our records on this well the following must be filed.

1. Form C-103, reporting setting the cement plugs and that the location has been cleaned up.
2. Form C-105, with all of the required information thereon and a copy of the sample description as per our telephone conversation of February 19, 1972.
3. If the rancher is to take the well over the enclosed Affidavit of Responsibility must be completed and filed in triplicate.

If you have any questions concerning this please feel free to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District II
