

ELMER J. FISHER
DRILLING CONTRACTOR
ALBUQUERQUE, NEW MEXICO

July 31, 1939

Mr. Roy Yarbough
Oil Inspector of the Oil Conservation Commission
Hobbs, New Mexico

Dear Sir:

Since talking to you last Friday, I investigated the water table on the Hill Ranch and I find it is 70 feet where I intended to drill rather than 110 feet which I advised you.

Therefor on the enclosed notice of intention to drill, you will note that I changed the 10 inch so as to be only 100 feet of the same, cementing it with 20 sacks and putting new casing in the hole.

All of the balance is as per our conservation and I hope this meets with your approval. With best personal regards, I am,

Very respectfully yours,

E. J. Fisher
