

August 9, 1939

Mr. Roy Yarbrough
Oil Conservation Commission
Hobbs, New Mexico

Dear Mr. Yarbrough:

Enclosed you will find triplicate copies of a Notice of Intention to Drill. I have changed the location as per the wishes of Mr. Andrews and will immediately take trucks and move to the new location set forth in this Notice of Intention to Drill. If this does not meet with your approval, won't you kindly advise me at your earliest convenience, as I am going to considerable expense to move the rig.

I will be at 300 West Deming in Roswell, New Mexico, on the 11th day of August, for a period of one week, so please advise me there.

With best personal regards, I am,

Very respectfully yours,

E. J. Fisher
