#50.

11

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the structure of the atom is not a simple one, but a very complicated one.

2. The second part of the paper is devoted to a discussion of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the structure of the atom is not a simple one, but a very complicated one.

3. The third part of the paper is devoted to a discussion of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the structure of the atom is not a simple one, but a very complicated one.

4. The fourth part of the paper is devoted to a discussion of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the structure of the atom is not a simple one, but a very complicated one.
