Attention: Mr. A. L. Ellerd

Re: Multi-Point Back Pressure  
Test, Federal 15, Well No.  
1 D, 15-15-29, Chaves  
County, New Mexico.

Dear Mr. Ellerd:

We have received the subject test report and note one minor error thereon. The length (L) should be 1996, the top of the tubing perforations, and the (GL) should, therefore, be 1836. Since these figures entered into none of the later calculations no other corrections were necessary.

I have shown this change on our copies of Form C-122 and am notifying you for your information only.

Very truly yours,

R. L. Stamets
