Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair and views the target through a video screen. The target is a light source that is controlled by a computer. The subject's hand is positioned over the target. The distance between the subject's hand and the target is 10 cm. The target is a light source that is controlled by a computer. Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group (n = 10) and the experimental group (n = 10). The control group received a standard diet (SD) and the experimental group received a high-fat diet (HFD). 17. On the other hand, it is important to note that the fact that the same person can be both a victim and a perpetrator of violence is not a contradiction. It is a reflection of the complexity of human behavior and the need for a comprehensive approach to violence prevention that takes into account both the individual and the social context. (p. 10)
