

INSTRUCTIONS

Form is designed for submitting a complete and correct well completion report and log on all types of lands and leases to either a Federal agency or to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the relevant agency. See instructions on items 22 and 24, and 25, below regarding separate reports for separate completions.

To the time this summary record is submitted, copies of all currently available logs (drillers, geologists, sample and core analysis, etc.) types of logs, etc., from tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All requirements in this form, see item 22.

If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State for specific instructions.

If this well is completed for separate production from more than one interval zone (multiple completion), submit a separate report for each interval zone. If this well is completed for separate production from more than one interval zone (multiple completion), submit a separate report for each interval zone. If this well is completed for separate production from more than one interval zone (multiple completion), submit a separate report for each interval zone.

Consent: Attached supplemental records for this well should show the details of any multiple stage cementing and the location of the cementation. Submit a separate completion report on this form for each interval to be separately produced. (See instruction for items 22 and 24 above.)
