Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was prepared for water injection in December 1971. Due to unavailability of equipment, water was not immediately injected into this well. On September 1, 1972 this well was returned to a flowing status and was produced until November 21, 1972. On November 21, 1972, we began injecting water into this well and it has been a water injection well since that date.
