Sec. 36, T14S, R29E

Gentlemen:

As per your instructions, we are enclosing a copy of Gamma-Neutron Log which should be kept confidential. In addition a drill stem test was taken from 1930-1965, open 1½ hours, recovered 1965' gas, 540' gas cut oil, 10' of mud, flow pressure 102-217#s, shutin pressure 743-723#s, hydrostatic pressure 1052. If at all possible, please keep this drill stem test confidential also.

Yours very truly
