(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Since this well is no longer being used as an injection well, there has been no injection for over five (5) years and there are no plans to return this well to injection, the rules dictate this well no longer has injection authority and can no longer be classified as an injection well. This well will be used as a pressure monitoring well for tests performed on well #1-16. Therefore, we respectfully request this well be reclassified as a shut-in oilwell.
