17. WORKING PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The Tract VI well #1 has been temporarily abandoned since June 1985. We request a one year extension of this status due to poor economic conditions. This well passed the New Mexico Oil Conservation Division's annular casing survey test in March, 1986.
